JOURNAL OF THE FRANKLIN INSTITUTE.

Vol. CXXXI.

INDEX.

Accumulator plate, a new. (Pike), ... 305
Acid, lapachic, on some derivatives of. (Hooker), ... 61
(Hooker and Greene), ... 56
Picric, notes on the compound of pyrrol, with. (Hooker), ... 69
Alloys, new, and their application in engineering. (Garrison), ... 434
Aluminium problem, the. (Richards), ... 189
Amberite, on the occurrence of, in a coal-seam at the Hawakawa colliery, N. Z. (Emanuel), ... 231
Ammonia, on some constants of. (v. Strombeck), ... 71

Barber, F. M. High explosives in warfare, ... 117
Bartram, George H. C a source of error in the determination of nitrates in water by the phenol-sulphonic acid method, ... 385
Bell, Louis. Electricity as a rival of steam. 212
Boiler shells, riveted joints in. (Le Van), ... 252, 335, 460
Book Notices:

(Allen.) Force and energy, ... 233
(Anonymous.) Cosmic law of thermal repulsion, etc., ... 401
(Casalonga.) Méchanique professionelle, etc., ... 399
(Compton.) Metal-working, ... 398
(Crimp.) Sewage-disposal works, ... 318
(Haupt and others.) A move for better roads, ... 493
(Haferkorn.) Handy lists of technical literature, ... 77
(Howe.) Method of least squares, ... 402
(Johnson.) Surveying, ... 398
(Jones.) Logarithmic tables, ... 403
(Longstaff.) Studies in statistics, ... 316
(McMillan.) Treatise on electro-metallurgy, ... 493
(Merriman.) Roofs and bridges, ... 495
(Reynolds.) Triple-expansion engines, ... 317
(Spillane.) History of the American piano-forte, ... 316
(Thompson.) Lectures on the electro-magnet, ... 314
(Weisbach.) Mechanics of engineering, etc., ... 400
(Wiechmann.) Sugar analysis, ... 77
(Wilson.) Photographic Mosaics, ... 404
(Witham.) Steam engineering, ... 399
Books added to library, ... 237, 405
Breakwaters, the stability of the superstructure of, etc. (d'Auria), ... 47
Brooks, David. The value of oil on an insulator for high-voltage currents, . . . 491

Carbutt, John. The Diazotype process of photographic dyeing and printing, . . 484
Chemical Section, proceedings (see FRANKLIN INSTITUTE).
Chemical theory, the progress of. (Frazer), ... 241, 321, 409
Chromite, analysis of a. (Pemberton), ... 387
Continuous girder, the—variable moment of inertia—moment and load coëfficient—graphical method. (Lindenberger), ... 30, 176
Cooper, John H. Phenomenal friction, ... 375

Dangers in electric lighting, a note on some. (McDevitt), ... 304
d'Auria, L. Analytical discussion of the tidal volume, etc., ... 267
Some facts relating to the article on force of impact of waves and the stability of the superstructure of breakwaters, ... 47
The law of variation of the theoretical amplitude of tidal oscillation, and the elevation of the high-water line in the various cross-sections of tidal rivers, ... 350
Davids, Richard W. A new form of megohm resistance, ... 311
Diazotype process of photographic dyeing and printing. (Carbutt), ... 484
Dynamometer, rough-and-ready, for small motors. (Hoskin), ... 489

Electric lighting, a note on some dangers in. (McDevitt), ... 304
Electrical Section, proceedings (see FRANKLIN INSTITUTE).
Electricity as the rival of steam. (Bell), ... 212
Electricity: its past, present and future. (Pope), ... 21, 88
Electrolysis of metallic sulpho-cyanides. (Frankel), ... 144
Electrolytic determination of gold. (Smith), ... 299
Mercury. (Smith), ... 297
Method applied to rhodium, ... 296
Ellipses, confocal, some properties of, and their application to mechanism. (Gale), ... 105
Emanuel, J. M. On the occurrence of amberite, ambrite or fossil gum in a coal-seam at the Hawakawa colliery, N. Z., ... 231
Explosives, high, in warfare. (Barber), ... 117

Fluorides, on the heat of formation of. (Richards), ... 477
Force of impact of waves and the stability of the superstructure of breakwaters, some facts relating to the article on. (d'Auria), ... 47
Frankel, Lee K. Electrolysis of the metallic sulpho-cyanides, ... 144
FRANKLIN INSTITUTE:
Annual reports of the board of managers and committees, ... 151
Books added to the library, ... 237, 405
Chemical Section:
Proceedings of stated meetings, ... 55, 141, 228, 295, 377, 488
Committee on Science and the Arts:
Olsen's testing machine (report), ... 81
System of the Interior Conduit and Insulation Company (report), . 161
Drawing school. Annual report of director, ... 406
Electrical Section:
Proceedings of the stated meetings, February to May, 1891, . 302, 303, 390, 488

FRANKLIN INSTITUTE:
Monthly reports of the Pennsylvania State Weather Service. *See Supplements.*
Proceedings of stated meetings, December, 1890, to May, 1891, . . 78, 158, 239, 318, 409
Frazer, Persifor. The progress of chemical theory, ... 241, 321, 409
Friction, phenomenal. (Cooper), ... 375

Galu, Horace B. Some properties of confocal ellipses, etc., ... 105
Garrison, F. L. New alloys and their engineering applications, ... 434
Girder, the cont nuous, etc. (Lindenberger), ... 30
Gold, the electrolytic determination of. (Smith), ... 299
Greene, Wm. H., (and Hooker, Sam'l C.). On some derivatives of lapachic acid, 56

Haines, Reuben. On local standards in water analysis, with especial reference to Philadelphia and vicinity, ... 378
Heat of formation of fluorides. (Richards), ... 477
Heating substances in glass tubes under pressure, apparatus for. (Pemberton), . 388
Hensoldt, H. The limits of scientific inquiry, ... 358
Hering, Carl. A new form of standard cell, ... 394
High explosives in warfare. (Barber), ... 117
Hooker, Sam'l C. Notes on the compound of pyrrol with picric acid, ... 69
On some derivatives of lapachic acid (II), ... 61
(and Greene, Wm. H.) On some derivatives of lapachic acid, 56
Hoskins, John. A rough-and-ready dynamometer for small motors, ... 489

Impact of waves, force of, and the stability of the superstructure of breakwaters, comments on. (d'Auria), ... 47
Induced currents, experimental analogue for direction of. (Rondinella), . . . 391
Insulator for high-voltage currents, value of oil as an. (Brooks), ... 491
Interior Conduit and Insulation Company's system, report on, ... 161
The system of house and underground wiring of. (Johnson), . 169
Ives, F. E. Photography in the colors of nature, ... 1

Johnson, E. H. The system of house and underground wiring of the Interior Conduit and Insulation Company, ... 169

Koenig, Geo. A. Is sulphuric hydrate volatile at the ordinary temperature of the air? 229

Lapachic acid, on some derivatives of. (Hooker and Greene), ... 56
(Hooker), ... 61
Law of variation of the theoretical amplitude of tidal oscillation, and the elevation of the high-water line in the various cross-sections of tidal rivers. (d'Auria), . 350
Le Van, Wm. B. Riveted joints in boiler shells, ... 252, 335, 460
Limits of scientific inquiry. (Hensoldt), ... 358
Lindenberger, C. H. The continuous girder—variable moment of inertia—moment and load coëfficient—graphical method, ... 30, 176

McDevitt, Wm. A note on some dangers in electric lighting, ... 304
Megohrm esistance, a new form of. (Davids), ... 311

Mercury, electrolytic determination of. (Smith), ... 297

Nitrates in water, on a source of error in the determination of, by the phenol-sulphonic acid method. (Bartram), ... 385

Oil, value of, as an insulator for high-voltage currents (Brooks), ... 491
Olsen's Testing machine. (Report of Committee on Science and the Arts), . . 81

Pemberton, H. Jr. Analysis of a chromite, ... 387
Apparatus for heating substances in glass tubes under pressure, ... 388
Phenol-sulphonic acid method of determining nitrates in water, on a source of error in, ... 385
Photography in the colors of nature. (Ives), ... 1
Pike, C. W. A new accumulator plate, ... 305
Pope, Ralph W. Electricity: its past, present and future, ... 21, 88
Possibilities of applied science. (Smith), ... 422
Pyrrol, notes on the compound of, with picric acid. (Hooker), ... 69

Rhodium. The electrolytic method applied to. (Smith), ... 296
Richards, Jos. W. On the heat of formation of fluorides, ... 477
The aluminium problem, ... 189
Riveted joints in boiler shells. (Le Van), ... 252, 335, 460
Rondinella, L. F. Experimental analogue for direction of induced currents, . . 301

Smith, Edgar F. Electrolytic determination of gold, ... 299
mercury, ... 297
method applied to rhodium, ... 296
Smith, Oberlin. Possibilities of applied science, ... 422
Standard cell, a new form of. (Hering), ... 394
Standards, local, in water analysis, etc. (Haines), ... 378
Steam-jacket efficiency, on a maximum. (Thurston), ... 276
Strombeck, Hans v. On some constants of ammonia, ... 71
Supplement, ... 470
Sulpho-cyanides, metallic, electrolysis of the. (Frankel), ... 144
Sulphuric hydrate, is it volatile at the ordinary temperature of the air? (Koenig), 229

Testing machine, Olsen's. (Report of Committee on Science and the Arts), . . 81
Thurston, R. H. On a maximum steam-jacket efficiency, ... 276
Tidal volume, analytical discussion of the, etc. (d'Auria), ... 267

Water analysis, on local standards in, with especial reference to Philadelphia and vicinity. (Haines), ... 378
Weather Service, for monthly reports see *Supplements*.
